- Ageing: minimum 12 months in American and French oak barrels.
- Resting in bottle: minimum 12 months.
- Production: 235.000 bottles
- Bottling date: January 2023
- Alcohol content: 14.5%

TASTING NOTES

 Intense cherry red with purple hues.

 Exuberant nose with a dominant presence of generous black fruit (blackberry and blueberry) over spice and mineral undertones.

 Oily and delicate with well-integrated ripe tannins. The aftertaste is intense and persistent and once again recalls fruity, vanilla and pastry aromas.

CONSERVATION AND PREFERRED CONSUMPTION

Serving Temperature: 16-17 °C

5 years potential storage in optimal conditions of 13-14 °C and 60% relative humidity, without temperature fluctuations.

VINTAGE 2021

The year 2021 started with very cold temperatures, plentiful snowfalls, and abundant rains. This harvest is characterized by well-balanced grapes and an homogenous development on different parcels of the vineyard.

The cover crop was vital to counteract humidity and get an optimum balance in the vines. The vineyards developed with regularity as no special meteorological events were noticed during the rest of the year.

Thanks to the excellent job done by the vine growing team, the vegetative growth intensity was perfect and the grapes showed no diseases. The crop thinning done in the vines was also very important to get well-balanced grapes.

Harvest started at the beginning of October and the grapes picked were of an outstanding quality. The harvest of 2021 will always be remembered as one of the greatest vintages in the history of Viña Pedrosa. Wines of an exceptional quality and with a very long life ahead and a great ageing potential.
