This lovely property located between Château LAFLEUR and Château GAZIN has belonged to the same family for three generations and has been farmed by Ets. Jean-Pierre MOUEIX since 1976.

The vines, of an average age of 30 years, are planted on soils of gravel and clay for the Merlot and silt where the Cabernet Franc shows its full character. The vineyard management and the vinification are carried out traditionally and with the same care as on the other Ets. Jean-Pierre MOUEIX properties.

Château LAFLEUR-GAZIN generally has a deep colour, a vivid nose and a good texture backed up by a firm tannic structure. It definitely needs to be kept a few years for full enjoyment.
