

## MERLOT VENETO IGT VILLA TERESA<sup>®</sup> *made from organically grown grapes*

Variety:	100% Merlot grapes.
Place of origin:	The gravely soil along the river Piave.
Vinification:	This wine is made following a traditional vinification technique. The must ferments with the skins at a controlled temperature for about 10 days. Then it is placed in special tanks to complete the fermentation for further 10 days at 28/30° C.

**Tasting notes:** Deep ruby red colour, tending towards garnet red. Intense vinous aroma, with pleasant herbaceous fragrance. Clean bouquet that recalls violet. Dry and very harmonic taste.

**Food combination:** It's the classic wine for the entire meal. Suitable with risotto, pasta and meat ravioli. Excellent with salami, boiled and roasted white and red meats.

**Alcohol content:** 12 vol.  
**Total acidity:** 5,70 g/lit  
**Sugar:** 5 g/lit

*Vini Tonon is a family own that was founded by Pietro Tonon in 1936. Since then two generations have been treasuring his secrets: great care of vineyards, vintage selection and particular attention from production and the wine tasting. Loris Tonon, the actual owner, combines high technology with passion and respect for traditions. The winery is located in the Veneto region, about 80 km nord-west from Venice, in the Prosecco area, between Conegliano e Valdobbiadene. We produce about 600.000 bottles, mostly of them are of Prosecco.*

*Villa Teresa is our line of wines made from organically grown grapes, that Vini Tonon is proud to produce. These wines are obtained from the vinification of grapes, coming from vineyards cultivated according to the organic rules. That means that they are protected from parasites by applying the principles of natural agriculture, a process that totally excludes the use of chemical fertilizers, herbicides and pesticides.*

*The organic agriculture is based on the rational use of the natural organisms present in the land with total respect for the atmosphere. Its goal is an healthy production without using any chemical products. Any treatments on the vine are realized with simple mineral salts, natural fertilizers to maintain a very small impact on the earth. Tonon organic wines are certified ICEA.*
